

# 100V Input Signal Repeater (For Long Distance Signal Transmission)

## T-6241

## Features

- \* Rack mounted design in 1U height.
- \* It is used to receive 100V signal from remote amplifier and feed into local PA system to make sure these 2 systems are enjoy some sources
- \* 100V line input Three aux outputs: 0.7V, 1V, 2V to feed into local PA system's mixer or pre amplifier.
- \* Ideal for more than 1Km sound system interface and amplification.

## Specifications

Model	T-6241
Power Input	$\geq 100V$ constant voltage. Two screw-nut terminals
Audio Output	$\geq 1.2V, 1V, 0.7V, 6.35mm$ jacks
Output Voltage	DC24V/1A, 230V/50Hz/2A
Frequency Response	80Hz~16KHz( $\pm 2dB$ )
Power Supply	~110V-230V 50/60Hz
Dimension	484 x 209 x 44mm
Weight	3.42Kg

## Rear Panel
