

5-Channel Volume Control with Relay

T-6239F

Features

- * 5 channel separate volume control.
- * Rack mounted design in 1U height.
- * Built-in relay.
- * An override feature is provided to disable the volume control settings in case of an emergency.
- * 5 channels inputs and outputs.
- * 5 independent channels, 200 watts per channel, total 1000W control capacity.
- * 5 steps attenuation.
- * Convenient and fast remote control the zone volume.
- * Frequency response from 100 Hz to 16 KHz while distortion less than 1.5dB.
- * DC 24V interface.

Specifications

Model	T-6239F
Power Output	200 watts x 5
Inputs	5 channels
Outputs	5 channels
Frequency Response	100 Hz~16 KHz(± 1.5 dB)
Output Level	0V~100V
Input	100V
Relay	DC 24V
Power Consumption	5W
Weight	4.63Kg
Dimensions	484 x 209 x 44mm

Rear Panel
